BEST PRACTICES FOR REUSING, RECYCLING & DISPOSING

CelluLiner

ipack.com/products/paper-insulated-box-liner/

REUSE

- Compost in your backyard or municipal green waste.
- Use as garden mulch, pet bedding, or packaging cushion.
- Hypoallergenic and biodegradable.

RECYCLE

1. Remove outer plastic film.
2. Recycle cotton fiber at drop-off locations:
 - H&M (any condition)
 - The North Face (Clothes the Loop)
 - Columbia (ReThreads bins)
3. Recycle outer plastic film with #4 plastics at grocery store bins.

DISPOSE

- Can dispose in household trash (biodegrades in ~27 weeks).

Pacific Gel Ice Pack

pop-hawaii.com/wp/

- Can be stored at room temperature. Refreezeable up to 8 times.
- Refreeze and reuse for coolers, lunch boxes, or cold compresses.
- Stop using if it leaks or becomes damaged.

1. Cut open and empty gel into the trash (do NOT pour down the sink).
2. Rinse outer plastic pouch.
3. Recycle with soft plastics (#4).

1. Gel must go into the trash (do NOT pour down the sink).
2. Can dispose entire pack in household trash.

Branded Cardboard Box

veritiv.com

- Wax free. Safe to compost.
- Use under mulch in garden walkways to suppress weeds.
- Shred and add to worm bins.

- Recyclable with curbside cardboard.

- Can dispose in household trash.
